This is the image that Ash placed into the Sept 19th PRP document. I can send this to Amy to replace if we are sending last minute edits.

Subject: RE: PRP: English

For eg:

AIS chapter – “A climate change projection tool” bullet – CDN flag position makes it seem as if CDN action

GW – Is the title of this study “*Quantifying the effects of surface water-groundwater interaction on dissolved phosphorus loads to Lake Erie*” or “*soluble*”? Was this an auto-replace error? The original before was “*dissolved*”.

Science Chapter - Progress toward Meeting GLWQA Commitments – missing 2016 and associated text box.. maybe that was on purpose but was in Sep 19 consolidated draft and even formatted version from contractor had a “misplaced” 2016 bubble.

Fig 19 – flagged while ago.. using images which we don’t have rights to use. Sent replacements in the Sep 19 consolidated draft.

Subject: PRP: English

Ash - related to the following message you sent me, can you quickly identify the missing text and the copyright image issues to Jamie, focusing on the items that jumped out at you.

“There are errors in the formatted Eng (missing text, Flag in wrong area so seems a CDN activity, we shouldn’t be using copyright images and also minor things like formatting”

Please let us know as soon as you’re back online.

Thanks!

Carla
